

12 ISSUES A YEAR

The trade wants it, retailers want it, and the public want it - in fact, the entire model helicopter world has been waiting for another magazine to hit the shelves. And so we're giving it to them, in the form of Rotorworld.

A UK R/C model helicopter magazine, Rotorworld has all the reviews, news, tips and special features that enthusiasts want to see. If flying a remote control model helicopter is something you've always wanted to do, and you're a beginner, we can help; if it's information on electric or scale helicopters you're after, there's plenty of interest too. Of course, we wouldn't forget to cover 3D model helicopter techniques, and even turbines - in fact, all types of R/C model helicopter bits and bits will be reviewed, tested and digested in Rotorworld.
